## **QNG - Qualitätssiegel Nachhaltiges Gebäude**

The Qualitätssiegel Nachhaltiges Gebäude (Quality Seal for Sustainable Buildings), developed by the German Federal Ministry for Housing, Urban Development and Building (BMWSB), defines requirements for the ecological, socio-cultural, and economic quality of buildings. The Sentinel Holding Institut evaluates construction products in accordance with QNG requirements for certification and awards the QNG ready label. Compliance with the QNG standard is a prerequisite for eligibility for the KfW funding programme. For certain product groups, the QNG currently has no specific requirements defined. Although classified as not assessment-relevant, these products remain suitable for QNG-certified projects.

Criteria	Pos. / product group	Considered substances	QNG assessment
3.1.3 Schadstoffvermeidung in Baumaterialien	not applicable	not applicable	QNG ready - Not relevant for assessment

Product:

**Unterdeck- und Unterspannbahn WÜTOP®  
Thermo ND Plus**

SHI Product Passport no.:

**13373-10-1078**

## **DGNB New Construction 2023**

The DGNB System (German Sustainable Building Council) assesses the sustainability of various types of buildings. It can be applied to both large-scale private and commercial projects as well as smaller residential buildings. The 2023 version sets high standards for ecological, economic, socio-cultural, and functional aspects throughout the entire life cycle of a building.

Criteria	No. / Relevant building components / construction materials / surfaces	Considered substances / aspects	Quality level
ENV 1.2 Local environmental impact, 03.05.2024 (3rd edition)	not applicable		Not relevant for assessment

Criteria	No. / Relevant building components / construction materials / surfaces	Considered substances / aspects	Quality level
ENV 1.2 Local environmental impact, 29.05.2025 (4th edition)	not applicable		Not relevant for assessment

Product:

**Unterdeck- und Unterspannbahn WÜTOP®  
Thermo ND Plus**

SHI Product Passport no.:

**13373-10-1078**

## **DGNB New Construction 2018**

The DGNB System (German Sustainable Building Council) assesses the sustainability of various types of buildings. It can be applied to both large-scale private and commercial projects as well as smaller residential buildings.

Criteria	No. / Relevant building components / construction materials / surfaces	Considered substances / aspects	Quality level
ENV 1.2 Local environmental impact	not applicable	not applicable	Not relevant for assessment

Product:

**Unterdeck- und Unterspannbahn WÜTOP®  
Thermo ND Plus**

SHI Product Passport no.:

**13373-10-1078**

## **BNB-BN Neubau V2015**

The Bewertungssystem Nachhaltiges Bauen (Assessment System for Sustainable Building) is a tool for evaluating public office and administrative buildings, educational facilities, laboratory buildings, and outdoor areas in Germany. The BNB was developed by the former Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety (BMUB) and is now overseen by the Federal Ministry for Housing, Urban Development and Building (BMWSB).

Criteria	Pos. / product type	Considered substance group	Quality level
1.1.6 Risiken für die lokale Umwelt			Not relevant for assessment

Product:

**Unterdeck- und Unterspannbahn WÜTOP®  
Thermo ND Plus**

SHI Product Passport no.:

**13373-10-1078**

## EU taxonomy

The EU Taxonomy classifies economic activities and products according to their environmental impact. At the product level, the EU regulation defines clear requirements for harmful substances, formaldehyde and volatile organic compounds (VOCs). The Sentinel Holding Institut GmbH labels qualified products that meet this standard.

Criteria	Product type	Considered substances	Assessment
DNSH - Pollution prevention and control		Substances according to Annex C	EU taxonomy compliant

Product:

**Unterdeck- und Unterspannbahn WÜTOP®  
Thermo ND Plus**

SHI Product Passport no.:

**13373-10-1078**

## BREEAM DE Neubau 2018

BREEAM (Building Research Establishment Environmental Assessment Methodology) is a UK-based building assessment system that evaluates the sustainability of new constructions, refurbishments, and conversions. Developed by the Building Research Establishment (BRE), the system aims to assess and improve the environmental, economic, and social performance of buildings.

Criteria	Product category	Considered substances	Quality level
Hea 02 Indoor Air Quality			Not relevant for assessment

Product:

**Unterdeck- und Unterspannbahn WÜTOP®  
Thermo ND Plus**

SHI Product Passport no.:

**13373-10-1078**

## Product labels

In the construction industry, high-quality materials are crucial for a building's indoor air quality and sustainability. Product labels and certificates offer guidance to meet these requirements. However, the evaluation criteria of these labels vary, and it is important to carefully assess them to ensure products align with the specific needs of a construction project.

Products bearing the Sentinel Holding Institute QNG-ready seal are suitable for projects aiming to achieve the "Qualitätssiegel Nachhaltiges Gebäude" (Quality Seal for Sustainable Buildings). QNG-ready products meet the requirements of QNG Appendix Document 3.1.3, "Avoidance of Harmful Substances in Building Materials." The KfW loan program Climate-Friendly New Construction with QNG may allow for additional funding.

Product:

**Unterdeck- und Unterspannbahn WÜTOP®  
Thermo ND Plus**

SHI Product Passport no.:

**13373-10-1078**

## Legal notices

(\* ) These criteria apply to the construction project as a whole. While individual products can positively contribute to the overall building score through proper planning, the evaluation is always conducted at the building level. The information was provided entirely by the manufacturer.

## Herstellereklärung

### **Produkte: WÜTOP Thermo Fassade, WÜTOP Thermo ND Plus, WÜTOP Economy, WÜTOP Perfect, WÜTOP Dampfsperre-FD-Alu 1500 L SK**

Auf Basis der uns vorliegenden Erklärungen unserer Lieferanten bestätigen wir, dass die oben genannten Materialien den Anforderungen folgender Dokumente entsprechen, bzw. keine der genannten Stoffe enthalten sind:

- EU-Verordnung 1907/2006 REACH
- EU-Richtlinie 2011/65 (RoHS)
- California Proposition 65 List
- POP-Persistente organische Schadstoffe

Unbeschadet dessen können wir unser Produkt die Anwesenheit von Verunreinigungen im Bereich ubiquitärer (allgegenwärtiger), nach Stand der Technik nicht vermeidbarer Spuren (unbeabsichtigt eingeschleppte Stoffe, „Non Intentionally Added Substances“) nicht ausschließen. Wir führen keine Tests zum Nachweis dieser Stoffe durch.
