Declaration of composition Rockpanel Durable and Rockpanel A2 boards in different thicknesses

We, Rockpanel, hereby declare that our Rockpanel Durable and Rockpanel A2 boards are produced with the same raw materials (stonewool fibers, binder, coating). The difference between these two board compositions is the density and binder content resulting in different mechanical and reaction to fire properties. No additional additives are used.

Should you need any further information or have any questions regarding this declaration, please feel free to contact us.

Thank you for your attention to this matter.

Sincerely,

John Relou M.Sc.
