## SHI Product Assessment 2024

Since 2008, Sentinel Holding Institut GmbH (SHI) has been establishing a unique standard for products that support healthy indoor air. Experts carry out independent product assessments based on clear and transparent criteria. In addition, the independent testing company SGS regularly audits the processes and data accuracy.

| Criteria                       | Product category | Harmful substance limit  | Assessment                   |
|--------------------------------|------------------|--|------------------------------|
| SHI Product Assessment         | Wood materials   | TVOC $\leq 300 \mu\text{g}/\text{m}^3$<br>Formaldehyd $\leq 36 \mu\text{g}/\text{m}^3$ | Indoor Air Quality Certified |

# QNG - Qualitätssiegel Nachhaltiges Gebäude

The Qualitätssiegel Nachhaltiges Gebäude (Quality Seal for Sustainable Buildings), developed by the German Federal Ministry for Housing, Urban Development and Building (BMWSB), defines requirements for the ecological, socio-cultural, and economic quality of buildings. The Sentinel Holding Institut evaluates construction products in accordance with QNG requirements for certification and awards the QNG ready label. Compliance with the QNG standard is a prerequisite for eligibility for the KfW funding programme. For certain product groups, the QNG currently has no specific requirements defined. Although classified as not assessment-relevant, these products remain suitable for QNG-certified projects.

| Criteria   | Assessment  |
|--|---|
| ANF2-WG1 Nachhaltige Materialgewinnung               | May positively contribute to the overall building score |
| <b>Verification:</b> PEFC Zertifikate vom 01.05.2023 |   |

| Criteria   | Pos. / product group | Considered substances | QNG assessment                             |
|--|----------------------|-----------------------|--|
| 3.1.3<br>Schadstoffvermeidung in<br>Baumaterialien | not applicable       | not applicable        | QNG ready - Not relevant for<br>assessment |

Product:

SHI Product Passport no.:

**12015-10-1008**

## **DGNB New Construction 2023**

The DGNB System (German Sustainable Building Council) assesses the sustainability of various types of buildings. It can be applied to both large-scale private and commercial projects as well as smaller residential buildings. The 2023 version sets high standards for ecological, economic, socio-cultural, and functional aspects throughout the entire life cycle of a building.

| Criteria   | No. / Relevant building components / construction materials / surfaces | Considered substances / aspects | Quality level               |
|--|--|---------------------------------|-----------------------------|
| ENV 1.2 Local environmental impact, 03.05.2024 (3rd edition) | not applicable   |                                 | Not relevant for assessment |

| Criteria   | No. / Relevant building components / construction materials / surfaces | Considered substances / aspects | Quality level               |
|--|--|---------------------------------|-----------------------------|
| ENV 1.2 Local environmental impact, 29.05.2025 (4th edition) | not applicable   |                                 | Not relevant for assessment |

Product:

## DGNB New Construction 2018

The DGNB System (German Sustainable Building Council) assesses the sustainability of various types of buildings. It can be applied to both large-scale private and commercial projects as well as smaller residential buildings.

| Criteria                           | No. / Relevant building components / construction materials / surfaces | Considered substances / aspects | Quality level               |
|------------------------------------|--|---------------------------------|-----------------------------|
| ENV 1.2 Local environmental impact | not applicable   | not applicable                  | Not relevant for assessment |

Product:

**Kantholz Fichte/Tanne gehobelt, GKL I**

SHI Product Passport no.:

**12015-10-1008**

## **BNB-BN Neubau V2015**

The Bewertungssystem Nachhaltiges Bauen (Assessment System for Sustainable Building) is a tool for evaluating public office and administrative buildings, educational facilities, laboratory buildings, and outdoor areas in Germany. The BNB was developed by the former Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety (BMUB) and is now overseen by the Federal Ministry for Housing, Urban Development and Building (BMWSB).

| Criteria                            | Pos. / product type | Considered substance group | Quality level               |
|-------------------------------------|---------------------|----------------------------|-----------------------------|
| 1.1.6 Risiken für die lokale Umwelt |                     |                            | Not relevant for assessment |

Product:

**Kantholz Fichte/Tanne gehobelt, GKL I**

SHI Product Passport no.:

**12015-10-1008**

## EU taxonomy

The EU Taxonomy classifies economic activities and products according to their environmental impact. At the product level, the EU regulation defines clear requirements for harmful substances, formaldehyde and volatile organic compounds (VOCs). The Sentinel Holding Institut GmbH labels qualified products that meet this standard.

| Criteria                                | Product type | Considered substances | Assessment                  |
|---|--------------|-----------------------|-----------------------------|
| DNSH - Pollution prevention and control |              |                       | Not relevant for assessment |

Product:

**Kantholz Fichte/Tanne gehobelt, GKL I**

SHI Product Passport no.:

**12015-10-1008**

## BREEAM DE Neubau 2018

BREEAM (Building Research Establishment Environmental Assessment Methodology) is a UK-based building assessment system that evaluates the sustainability of new constructions, refurbishments, and conversions. Developed by the Building Research Establishment (BRE), the system aims to assess and improve the environmental, economic, and social performance of buildings.

| Criteria                  | Product category    | Considered substances                             | Quality level     |
|---------------------------|---------------------|---|-------------------|
| Hea 02 Indoor Air Quality | Wood-based products | Emissions: Formaldehyde, TVOC, TSVOC, carcinogens | Exemplary quality |

**Verification:** Prüfbericht des Instituts SGS Institut Fresenius GmbH vom 22.10.2020. Konformitätserklärung vom 20. September 2024 bestätigt die materielle Übereinstimmung mit dem geprüften Produkt.

Product:

**Kantholz Fichte/Tanne gehobelt, GKL I**

SHI Product Passport no.:

**12015-10-1008**

# Product labels

In the construction industry, high-quality materials are crucial for a building's indoor air quality and sustainability. Product labels and certificates offer guidance to meet these requirements. However, the evaluation criteria of these labels vary, and it is important to carefully assess them to ensure products align with the specific needs of a construction project.

The PEFC label certifies wood and wood products from sustainably managed forests and requires, among other things, legal origin, protection of forest ecosystems, and social minimum standards in forestry. Environmental organisations consider PEFC's criteria to be less strict than those of FSC, particularly regarding the protection of sensitive forest areas. Health-related aspects of the final product are not part of the PEFC assessment.

This product is SHI Indoor Air Quality certified and recommended by Sentinel Holding Institut. Indoor-air-focused construction, renovation, and operation of buildings is made possible by transparent and verifiable criteria thanks to the Sentinel Holding concept.

Products bearing the Sentinel Holding Institute QNG-ready seal are suitable for projects aiming to achieve the "Qualitätssiegel Nachhaltiges Gebäude" (Quality Seal for Sustainable Buildings). QNG-ready products meet the requirements of QNG Appendix Document 3.1.3, "Avoidance of Harmful Substances in Building Materials." The KfW loan program Climate-Friendly New Construction with QNG may allow for additional funding.

Product:

**Kantholz Fichte/Tanne gehobelt, GKL I**

SHI Product Passport no.:

**12015-10-1008**

## Legal notices

(\*) These criteria apply to the construction project as a whole. While individual products can positively contribute to the overall building score through proper planning, the evaluation is always conducted at the building level. The information was provided entirely by the manufacturer.

applies a management system in line with the

**PEFC**

PEFC/04-32-0001

### Chain-of-Custody-Standard of PEFC

*Programme for the Endorsement of Forest Certification*  
according to the international PEFC standard  
PEFC ST 2002:2020 "Chain of Custody  
of Forest Based Products – Requirements"  
(German PEFC standard PEFC D ST 2002:2020)  
in the actually valid version  
(to this see also [www.pefc.org](http://www.pefc.org)).

It was proved that the requirements with regard to  
**credit method**

are fulfilled and applied. The enterprise signed a surveillance  
contract with HW-Zert GmbH and is audited every year.  
This certificate authorizes to sell the in the area of application  
listed products/product groups according to the above-named  
method as **PEFC certified** and/or **PEFC controlled sources**.

Kind of certificate:

**Individual certification**

PEFC-Scope:

**Sawmill**

Scope:

**Schnittholz, Leimholz, Bauholz  
WOMONY (Möbel), Gartenholz  
Restholz, Brennstoffe**

Certificate number:

**HW-PEFC-CoC-0404-24**

Date of creation:

**15.02.2024**

This certificate is valid:

**01.05.2024 to 30.04.2029**

La entidad de certificación HW-Zert GmbH, autorizada de PEFC Alemania e. V., confirma mediante este escrito que la empresa

## Rettenmeier Holzindustrie Wilburgstetten GmbH

Industriestraße 1  
91634 Wilburgstetten

lleva un sistema de control empresarial que coincide con las

PEFC

PEFC/04-32-0001

### exigencias de Cadena de Custodia del PEFC

*Programme for the Endorsement of Forest Certification*

según el estándar internacional

PEFC ST 2002:2020 "Chain of Custody

of Forest Based Products – Requirements"

(Estándar alemán PEFC D ST 2002:2020)

en la versión actualmente válida

(para esto véase también [www.pefc.org](http://www.pefc.org)).

Está comprobado el cumplimiento y la aplicación de las exigencias referente al **método de crédito.**

La empresa ha cerrado un contrato de supervisión con la HW-Zert GmbH que se audita cada año.

Este certificado está autorizado a vender la lista en el ámbito de los productos/grupos de productos de acuerdo con el método anterior, **Certificado PEFC** y/o **Fuentes Controladas PEFC**.

Tipo de certificado:

**Certificado individual**

PEFC-Scope:

**Sawmill**

Alcance:

**Schnittholz, Leimholz, Bauholz  
WOMONY (Möbel), Gartenholz  
Restholz, Brennstoffe**

Número certificado:

**HW-PEFC-CoC-0404-24**

Fecha de expedición:

**15.02.2024**

Este certificado es válido:

**01.05.2024 hasta 30.04.2029**
