

VELUX burglary-resistant electric flat-roof window CVP ----Q

Glazing 73QV

Enjoy ultimate convenience and remote-controlled ventilation with an electric base unit CVP Q. A burglary-resistant construction with P4A laminated inner pane delivers maximum security, while the insulated ThermoTechnology™ construction and low-energy glazing with energy coatings help keep your home warm and energy costs low. Compatible with all our top units.

- Enjoy the peace of mind of our burglary-resistant flat-roof window with splinter-proof security glazing.
- Enjoy maximum ventilation and daylight control with the touch-screen control pad with pre-defined programmes.
- Easily open your VELUX electric flat-roof window for fast access to fresh, outside air.
- Integrated rain sensor automatically closes your VELUX electric flat-roof window in the event of rain.
- Large 142 mm ventilation area lets you air out quickly and easily with the touch of a button.
- Conveniently control blinds and accessories (add-ons) with the touch of a button.
- Enjoy unobstructed views to the outside thanks to the totally hidden integrated motor.
